FIELDS OF SPECIALIZATION

Agricultural Trade, Trade Policy, Commodity Markets

EDUCATION

North Dakota State University

Ph.D. in Applied Economics

Committee: Sandro Steinbach (Chair), Thomas Krumel, Shawn Arita, Matt Gammans, Oudom Hean

Fargo, ND

2023 – Present

North Carolina State University

M.S. in Economics

Committee: Heidi Schweizer (Chair), Xiaoyong Zheng, Zheng Li

Raleigh, NC

2022

Adnan Menderes University

B.S. in Agricultural Economics

Aydin, TR

2017

PROFESSIONAL EXPERIENCE

Graduate Research Assistant

North Dakota State University

Fargo, ND

01.2023 – Present

Graduate Research Assistant

University of Connecticut

Storrs, CT

08.2022 – 01.2023

Graduate Research Assistant

North Carolina State University

Raleigh, NC

05.2021 – 04.2022

Intern

TR Ministry of Agriculture and Forestry

Aydin, TR

07.2016 – 09.2016

TEACHING EXPERIENCE

Co-Instructor, North Dakota State University

International Trade (Undergraduate & Graduate Level)

Teaching evaluations (2024-25-26) available upon request

Spring 2026

Teaching Assistant, North Dakota State University

International Trade (Undergraduate & Graduate Level)

International Trade and Policy (Undergraduate & Graduate Level)

Macroeconomics (Undergraduate)

Spring 2025

Spring 2024

Spring 2024

Guest Lecturer, North Dakota State University

Feeding and Fueling the World (Undergraduate)

Fall 2024

WORKING PAPERS

Yasin Yildirim, Sandro Steinbach (2026) **When Trade Policy Shocks Hit the Pit: Pricing, Volatility, and Speculation in the 2025 Soybean Futures Market.** *Submitted.*

Analyzes short-run responses of soybean futures markets to major 2025 trade policy shocks using an event-study framework. The results show that market adjustments are driven more by volatility and speculative positioning than by price levels, with the April 2 tariff escalation generating the strongest response.

Yasin Yildirim, Sandro Steinbach (2026) **Economic Integration Agreements and Agricultural Trade Margins.** *In preparation for submission.*

Combines a product-level gravity framework with a trade-margin decomposition to quantify how trade agreements reshape agricultural export patterns. The results show that agreements expand the range of exported products, making diversification a central source of trade growth, with stronger and persistent effects for processed goods, high-income partners, and deeper agreements.

Yasin Yildirim, Sandro Steinbach (2026) **Strait of Hormuz Disruptions and Global Fertilizer Markets.** *In preparation for submission.*

Studies how disruptions to major energy and trade corridors propagate to global fertilizer markets and agricultural production through supply constraints, trade disruptions, and price adjustments.
